III. HAZARDS IDENTIFICATION

Emergency Overview: Accidental fire may cause low-energy fragments to be emitted thus

causing potential eye injury.

Potential Human Health Effects:

Skin Contact: May cause allergic reaction (sensitization) in susceptible individuals.

Eye Contact: Dust and fumes can irritate the eyes causing redness and discharge.

Inhalation: Inhalation of dust or fumes may cause irritation to nose, throat, upper

respiratory tract and lungs. Irritation may lead to bronchitis, headache,

lowering of blood pressure and weakness.

Ingestion/Absorption: Ingestion may cause severe headache, nausea, vomiting, abdominal

pain, fatigue, diarrhea, trembling, ringing in ear and salivation.

Carcinogenicity Information: This product is not classified a carcinogen by IARC, OSHA, NTP or

EPA. Lead is classified a carcinogen by IARC.

IV. FIRST AID MEASURES

Skin Contact: Wash affected area thoroughly with soap and water. Remove contaminated

clothing. Wash clothing thoroughly prior to reuse. Discard any contaminated

leather items (i.e. shoes, etc.).

Eye Contact: If wearing contacts, immediately remove contact lenses. Hold eyelids apart and

flush eyes thoroughly with water for at least 15 minutes. Obtain medical

attention immediately.

Inhalation: Immediately remove to fresh air. Administer artificial respiration, if necessary.

If breathing is difficult, administer oxygen. Obtain medical attention

immediately.

Ingestion/Absorption: If conscious, drink large amounts of water. Induce vomiting. Immediately

contact a physician or Poison Control Center. *Never* induce vomiting or give

anything by mouth to an unconscious person.

Revised: August 10, 2007 Page 2 of 6

V. FIRE HAZARDS

Flammable Properties: May ignite if heated to 250°F. Will ignite when exposed to flame and high

temperatures. Be cautious of low-energy fragments.

Extinguishing Media: Flood fire with water to fight fire and cool shells. If no water is available,

use carbon dioxide, dry chemical or earth.

Fire-Fighting Instructions: Evacuate area immediately. Deluge area with water. Wear full fire-

fighting protective gear including face shield or SCBA to protect from

fragments.

VI. ACCIDENTAL RELEASE MEASURES

Safeguards: Remove from all sources of ignition.

Spill Cleanup: Use non-sparking equipment to clean up spill. If disposal is necessary, refer

to XIII. DISPOSAL CONSIDERATIONS.

Accidental Release: See above.

VII. HANDLING AND STORAGE

Personnel Handling: Handle with care. Do not strike or crush the rounds.

Storage: Store in original containers in a cool, dry, well-ventilated area away from all

sources of ignition. Do not subject to mechanical shock. Keep out of reach of children. This product *must not be stored* with acids, strong oxidizers or

caustics.

VIII. PERSONAL PROTECTION/EXPOSURE CONTROLS

Engineering Controls: Local exhaust ventilation is recommended if significant dusting occurs.

Otherwise, use general exhaust ventilation.

Personal Protective Equipment: Safety glasses recommended when handling or firing rounds.

Hearing protection recommended when firing rounds.

Use of a NIOSH/MSHA-approved respirator is recommended when concentrations to fumes and/or dust exceed the PEL or TLV.

Exposure Guidelines: • Keep product away from sources of accidental ignition.

Exposure Limits: • Exposure limits listed with each hazardous chemical.
